## READ CAREFULLY

This term sheet summarizes the principal terms with respect to a possible license of University technology to the entity listed in section 1 as Potential Licensee. This term sheet is intended solely as a basis for further discussion and is not intended to be and does not constitute a legally binding obligation. No other legally binding obligations will be created, implied, or inferred until a license agreement (e.g. Exclusive Patent License Agreement, Non-Exclusive Patent License Agreement, Plant License Agreement, Software License Agreement, etc.) in final form is executed and delivered by all the parties. Without limiting the generality of the foregoing, it is the parties intent that, until that event, no agreement shall exist among them and there shall be no obligations whatsoever based on such things as parol evidence, extended negotiations, "handshakes," exchanges of emails, oral understandings, or courses of conduct (including reliance and changes of position), except as may be outlined in a non-disclosure agreement with respect to the confidentiality obligations of the parties regarding any exchange of confidential information. Nothing in this term sheet is to be construed to prevent the University from discussing similar terms with other potential licensees.
